ZJDDR32L	Long Drill Ø 3.2 JDZygoma
ZJDDR36	Drill Ø 3.6 JDZygoma
ZJDDR36L	Long Drill Ø 3.6 JDZygoma

# DRILLING PROTOCOLS

There are two procedure to use the JDZygoma Drills:

- The first one is the **Standard Procedure**, workable with ZSKITF full kit
- The second one is the **Extra Maxillary Procedure**, workable with drill with fixed diameter "3 Flutes" present in both the kit

The peculiarity of these drills lies in the size of the diameter of the non-working course, which remains identical from the diamond drills to the drills n°3. This is because once created the recess by the diamond cutter, this will be a support for the insertion of the subsequent drill, which will adhere perfectly to the channel to be perfectly guided on the axis.

## JDZygoma Ø 3.9mm

## JDZygoma Ø 4.3mm

**Note:** All measurements in mm
